

Yankee Tronics, Inc.

Manufacturer's Representative

Post Office Box 503
Manlius, New York 13104-0503
(315) 682-8368, Fax: (315) 682-4641
Website: www.yankeetronics.com
Email: info@yankeetronics.com

We Are Proud To Represent The Following Product Lines

**AEGIS – Industrial
Software Corporation**
www.aiscorp.com

Aegis' Manufacturing Operations Software solutions deliver rapid New Product Introduction, Shop Floor Materials Verification, Paperless Documentation, Quality Collection and Repair, Process Tracking and Control, and Reporting Analytics with Real-Time Dashboard Capability.

Essemtec USA
www.essemtec.com

Low to Medium Volume SMT Processing Equipment including Pick and Place Systems, Reflow and Curing Ovens, Printing Systems and Dispensing Systems.

INDIUM Corporation
www.indium.com

The premiere manufacturer of interconnect materials for PCB Assembly, Semiconductor Packaging, Power Semiconductors, Thermal Interface Materials (TIM) and Engineered Solder Material Solutions.

JUKI Automation Systems
www.jas-smt.com

Automatic Pick and Place Equipment and Selective Soldering Equipment.

Kyzen Corporation
www.kyzen.com

The world leading provider of environmentally responsible aqueous and semi-aqueous precision cleaning products and services for electronics and high-technology manufacturing operations.

**Lista International Corp. /
Arlink Workstations**
www.listaintl.com

Workspace solutions include Storage Products: Storage Cabinets, Storage Wall® Systems, Mobile Cabinets and Mezzanines; Workstations: Technical & Electronic, Adjustable Height, Packing and Shipping and Arlink® 8000 Assembly Workstations.

P.D. Circuits, Inc.
www.pdcircuits.com

Single-source supplier of all types of bare Printed Circuit Boards including Single Sided to 44 Layers, Rigid, Flex and Rigid/Flex - Prototype through domestic and off-shore production

Photo Stencil
www.photostencil.com

Supplier of Stencils, Screens, Custom Stencil Services, Squeegee Blades and SMT Package Assembly Tools to the electronics assembly and semiconductor industries. Independent studies show the superior printing characteristics of their AMTX E-Fab Process and Photo Stencil is the exclusive Manufacturer of this Patented Process.

RESYS, Inc.
www.resysinc.com

Closed-loop Water Treatment Systems.

Speedline Technologies
www.speedlinetech.com

ACCEL: Cleaning and reflow systems for Hybrid Circuitry Assembly, Semiconductor Packaging and Microelectronics.

CAMALOT: Automated liquid dispensing and conformal coating systems.

ELECTROVERT: Cleaning systems, convection reflow/curing ovens and wave solder machines.

MPM: Advanced stencil printing and wafer bumping systems.

YESTech, Inc.
www.yestechinc.com

Automated Optical Inspection (AOI) Systems and High Resolution X-Ray Systems.
